

**3 POST-DOCTORAL OR JUNIOR SCIENTIST POSITIONS**  
**McGILL UNIVERSITY, MONTREAL, CANADA**  
**at the LADY DAVIS INSTITUTE – JEWISH GENERAL HOSPITAL**

Laboratory of Dr. H. Uri Saragovi  
Available immediately or flexible start

**FOCUS AREAS: NEURODEGENERATION - NEUROPROTECTION**

- **Chemical Biology & Drug Development**
- **Receptor Pharmacology (ex vivo and in vivo)**
- **Molecular Basis of Therapeutics**
- **Pre-clinical and Translational Medicine**

We are looking for highly motivated postdoc and/or junior scientists to join a Team of local and international collaborators on Neurotrophin Receptors and Signaling, mechanisms of disease, target validation, and experimental therapeutics.

Scientific programs ranging from basic discovery to Investigational New Drugs. Role expected in producing high quality scientific publications, interest in patents is a plus. Follow-on career opportunities in industry if interested.

Must be less than 5 years from date of Doctoral degree. Salary to the scale of Federal funding agencies, and customary University benefits.

**Open to highly qualified candidates of any scientific background.**

**Experience preferred in:**

- Retinal diseases (glaucoma, Neovascularization, Diabetic Retinopathy, AMD, Retinitis Pigmentosa)
- Motor neuron diseases (ALS, dystrophies).
- Chemical Biology and synthetic chemistry
- Receptor Biology and Pharmacology
