## **Position Description: Research Assistant**

An immediate part-time position (20 hours/week) is available on the research team of Dr. Michael Goldfarb, critical care cardiologist and Lady Davis Institute researcher. Among other projects, Dr. Goldfarb is looking to validate a novel tool to measure family engagement in the intensive care unit (FAME), as well as assess the feasibility of virtual family participation in adult ICU rounds (VR-Family). The ideal candidate is an organized, approachable and independent individual capable of carrying out successful recruitment of participants for trials.

## **Role and Responsibilities**

Contribute to participant recruitment for the research team's ongoing trials, through:

- Identifying and approaching eligible participants for the respective trials,
- Obtaining the informed consent of participants,
- Enrolling participants into appropriate trials,
- Providing positive patient experiences in adherence with study protocol,
- Collecting pertinent data in accordance with research protocol guidelines;
- Maintaining effective communication and collaboration with other research team members,
- Building good rapport with healthcare staff while recruiting (nurses, physicians, etc.)

## Qualifications

- Bilingual: French and English
- Ability to work independently and as part of a larger team
- Excellent interpersonal skills
- Organized and detail-oriented
- Bachelor's degree is an asset
- Familiarity with REDCap is an asset

## **General Information**

- Pay: \$27-32/hour according to qualifications and expertise
- Hours of Work: 20 hours per week (~4 hours/day, 5 days/week) -Negotiable
- **Duration of contract:** 6-months, with possibility of renewal
- Start Date: Immediately
